### Purpose

Knowing your personal strengths and being able to speak clearly and confidently about them will help you to create a positive impression on those around you, which is particularly important when job seeking and engaging with potential employers. The tasks below are to help you focus on what personal strengths look like in others and what are yours.

#### 1. Who do you admire and why?

Name a character in a TV show, movie or book who inspires you.

What are their strengths, what qualities impress you?

How do they use these strengths in their everyday activities, to achieve goals or to overcome challenges?

#### 2. Now think of someone you know who inspires you.

Write their name and what they do.

What do you perceive as their strengths? What qualities impress you?

How do they use those strengths in their daily lives/workplace, to do good, or to overcome challenges?
